EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Hull, ESQ. on 6 October 2003.

The application has been amended as follows:

a) In the claims:

In claim 3, line 9, after: "prevention layer;" insert --wherein the anti-reflection layer and the etching prevention layer are formed of different materials,--

In claim 8, line 8, after: "prevention layer;" insert --wherein the anti-reflection layer and the etching prevention layer are formed of different materials,--

b) In the Title:

Replace title with: --Method for Forming a Gate of a High Integration Semiconductor Device Including Forming an Etching Prevention or Etch Stop Layer and an Anti-Reflection Layer--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: in claim 3, lines 7-10, "depositing an etching prevention layer on the resultant structure; depositing an anti-reflection layer on the etching prevention layer, wherein the anti-reflection layer and the etching prevention layer are formed of different materials" along with the layers defined in lines 3-6 and the etching gases of lines 14-17 can not be reasonably combined to form a rejection from the prior art of record. The prior art of record fails to teach, in combination, the process features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
